SUMMARY

Software engineering graduate building web and mobile applications with TypeScript, React, React Native and Node.js. Comfortable across the whole stack — database schema, REST API and interface. Currently studying machine learning and large language models.

TECHNICAL SKILLS

Frontend	React, React Native (Expo), TypeScript, JavaScript (ES6+), HTML/CSS, Tailwind CSS, Bootstrap
Backend	Node.js, Express, PHP, Laravel, C#, Python, REST API, JWT authentication
Databases	PostgreSQL, MySQL, Prisma ORM, PDO, SQL
Tools	Git, GitHub, Docker, npm, Postman, Agile/Scrum, CI/CD
Learning	Machine Learning, Deep Learning, LLMs, PyTorch, RAG, Kubernetes, Prometheus, Grafana

EXPERIENCE

Full Stack Developer

Jul 2024 – Oct 2024

EA Telekomünikasyon Bilişim Teknolojileri · İzmir, Türkiye

- Developed cross-platform mobile applications for iOS and Android using React Native and Expo.
- Built dynamic and scalable web applications with Laravel and PHP, using PDO and MySQL for database management.
- Implemented Node.js APIs handling real-time data to improve system performance.
- Applied HTML, CSS and JavaScript (ES6+) to build responsive interfaces; integrated monitoring and optimization tools to improve application speed and reliability.

PROJECTS

Developer Platform — personal portfolio & blog

2026

- Full-stack application built from scratch: React + TypeScript frontend, Express + Prisma REST API, PostgreSQL database; layered backend architecture (routes / controllers / services), typed end to end.
- JWT authentication with bcrypt hashing, auth middleware, protected admin routes and rate limiting.
- github.com/abdussamedcengiz/developer-platform

Full-Stack AI Application

2025

- TypeScript application connecting AI services to a web interface.
- github.com/abdussamedcengiz/FullStackAI-Projesi

Fast Food App — mobile ordering

2025

- React Native mobile client with a Laravel REST API backend; end-to-end mobile-to-server data flow.
- github.com/abdussamedcengiz/fast_food_app

Warehouse & Inventory Tracking System

2025

- Personal project: stock and warehouse tracking application, including secure authentication.

EDUCATION

B.Sc. in Software Engineering

Sep 2021 – Jun 2025

Kırkareli University · Kırklareli, Türkiye

- Coursework in algorithms and data structures (C/C++), image processing and databases.

CERTIFICATIONS

Udemy — React Native (iOS & Android) · Node.js (beginner to advanced) · Modern JavaScript ES6+ · Python (100 days of code) · PHP web programming with PDO & MySQL

LANGUAGES

Turkish (native) · English (B2)
